

Fax Servers

FaxFinder® Fax Servers

Send and receive faxes from your computer

The FaxFinder® fax server is an all-in-one fax server that provides distributed faxing capabilities, over a WAN, from a corporate office to small remote offices as well as to field sales people. Inbound faxes are delivered to a recipient's in-box or a network folder, or printed on a network printer. Outbound faxes can be sent by Web client or through Microsoft® Office applications.

Sample Applications:

- Medical/dental offices (Electronic Medical Records)
- Real estate offices
- Mortgage companies
- Banks
- Insurance companies
- Transportation companies
- Construction companies

Features:

- Supports SIP and T.38 real-time faxing or T.37 "e-mail-to-fax" protocols
- Web services API allows for integration with 3rd party applications
- Build one fax of multiple documents for simplified management of documents
- Archives inbound and outbound faxes to shared network storage

Benefits:

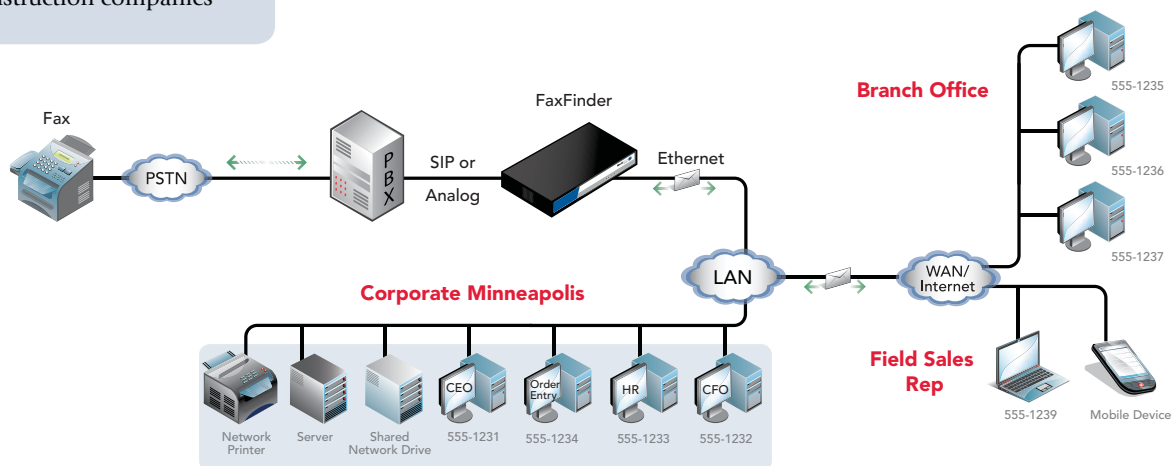

- Substantial savings compared to fax subscription services
- Achieves ROI in weeks with improved employee productivity (ROI calculator available at www.multitech.com/faxfinder)
- T.38 protocol supports compliance to industry-specific regulations (i.e., HIPAA and Sarbanes-Oxley)
- Access to corporate and personal phonebooks, including Microsoft Outlook® address book
- Seamless compatibility with a wide range of PBX systems, including Avaya, Mitel® and ShoreTel®

FaxFinder Analog Fax Servers

- 1-, 2-, 4- and 8-port models
- Super G3 V.34/33.6K fax communication

FaxFinder IP Fax Servers

- 2-channel model
- Field upgradable to 8-channels

Quality & Compatibility

Multi-Tech Unified Communications solutions combine quality hardware and industry-leading software to deliver the best value for small-to-medium sized businesses. Compatible with a wide range of telephony systems from leading PBX manufacturers, Multi-Tech fax servers and VoIP gateways offer the perfect way to complete any UC solution.

Since 1970, Multi-Tech Systems has helped thousands of customers achieve a competitive advantage by providing innovative, reliable solutions that return superior business results. Our goal is to help our customers:

- Implement turnkey, flexible solutions
- Increase productivity
- Reduce operating expenses
- Realize quick return on investment

Quality Products

Multi-Tech Unified Communications solutions have set the standard for quality and performance. Our commitment to quality means we thoroughly test every product before it leaves our doors. Today, Multi-Tech delivers the most reliable Unified Communications solutions on the market.

Exceptional Service and Support

Multi-Tech is committed to providing its customers with exceptional technical support and quality service, to ensure a positive customer experience.

- Installation support packages provide a convenient way to streamline the installation of solutions.
- The Support Portal allows customers to track their interactions with technicians.
- The online Knowledge Base provides 24/7 access to important information.
- Our commitment to quality doesn't end at the time of purchase; we regularly provide firmware updates with the latest enhancements Multi-Tech has to offer.

Developer Community

To support developers using APIs for the FaxFinder fax server, the Multi-Tech engineering team created **www.multitech.net**. Log on to the site and access a variety of resources, including product documentation, application development examples, technical articles and much more.
